# WEBSITE DEVELOPMENT FOR PROPERTY PROFESSIONALS

*Setup by property professionals for property professionals, The Property Jungle is the web development agency for estate agents. We specialise in demystifying the web and making its benefits available to all.*

## MAKE THE WEB WORK FOR YOU.

There has been a revolution in the way properties are marketed and sold. Over 80% of people looking for a home now use the Internet as their primary research tool. A fast, good-looking, easy-to-navigate, content-rich website is, therefore, a must.

We understand technology. We understand property.

We've worked in and around the industry for almost 30 years, now. We understand your business, and we understand how web technology can help it grow.

We were among the first to spot the potential of the Internet for the property industry and have been developing property software, systems and solutions since 1993.

In the last few years, we have built over 400 websites for independent estate agents – from start-ups to established, multi-branch agencies – around the world.

## FAST, EFFICIENT, SEAMLESS.

For a website to be used, it's got to be useful. Our websites are designed with all the search functionality today's homebuyers demand. From Google map-based searches and Geo-coding to virtual viewings and local amenity data, we make sophisticated web tools affordable for all.

Because we are specialists in the industry we have built up excellent relationships with the leading property software suppliers. This means we can seamlessly integrate your everyday agency software into your site at a fraction of the cost of other web design agencies.

From Aspsia to Dezrez to Vebra, we take the live data feeds and link them into your site, maximising the exposure of your property portfolio and helping you to work more efficiently and effectively. All of this is totally customised with your branding to seamlessly match the rest of the site.

# THE PROPERTY JUNGLE

## YOUR ONE STOP, WEB-TECHNOLOGY SHOP

We offer every web-based service you'll ever need, all under the one roof.

Our services include:

- **Web design**
- **Database integration** (We work with all the leading estate agency applications, including: Dezrez, Vebra, Core Systems, Thesaurus, Aspasia and Home Sale Network. We even offer our own property uploader.)
- **Hosting**
- **Domain name acquisition**
- **Search Engine Optimisation (SEO)**

## AFFORDABLE, FIXED-FEE PRICING

Everything we do has a business benefit for our customers. Our costs are transparent and fixed, so you know exactly what you're getting for your money. And because we utilise the latest web-based technologies, our overheads are low — savings that are reflected in our extremely competitive rates.

Our fee structure is simple. We charge only £395 plus £55 per page of static content. Privacy Policy and Terms of Use are also provided for only £12.50 each.

Externally generated dynamic pages are integrated free of charge. However, live XML data feeds can be integrated into your site from as little as £300 to give you a 100% bespoke look and feel.

Our domain purchase fees are £10 (for 2 years) for a .co.uk and £20 (for 2 years) for a .com (all figures are subject to VAT).

## Hosting only £100+VAT per annum

To ensure your site is always available and quick and easy for your customers to use, we've created a simple, infinitely flexible hosting solution with a fixed price of only £100 per year, plus VAT. You get unlimited bandwidth, unlimited web space and unlimited email accounts, and better still, get to speak to real people whenever you need assistance. You won't find cheaper.

The Internet has never been more affordable or effective for estate agents. Make the web work for you, call us today – on 0808 1800 178 – for a free, no-obligation quotation.
